

# Industrial Training Program 2023

Join RENU and be part of the team dedicated to transforming the Research and Education landscape in Uganda. The 2023 RENU Industrial Training Program (ITP) is designed for undergraduate students, as part of their university academic courses.

During the ITP, students will be exposed to cross-functional operations and activities, delivering an all-around experience. The program comprises training in the form of hands-on working experience.

We are looking for 10 passionate, highly motivated, competitive, creative, exceptionally bright and talented individuals, who can work and learn from our experienced ICT technical teams.

## Background and Requirements:

- Bachelor's degree from a RENU member university in any of the following areas:
  - Computer Science
  - Telecommunications Engineering
  - Software Engineering
  - Computer Engineering
- Minimum CGPA of 4.0
- Partial University Transcript
- UACE and UCE Pass slip

**Challenge yourself, and submit your application!**
